

A mid-19th century portrait of a child on ivory

Era: mid-19th century

Materials: ivory, wood

Dim: L: 3.50in (8,9 cm) / W: 3.14in (8 cm)

Dim (without frame): L:1.49in (3,8 cm) / l: 1.18in (3 cm)

A miniature on ivory depicting a fine portrait of a child standing out on a light background. This child is represented from the front, white shirt slightly open on the torso. The artist highlighted the baby face and clear eyes of this child. Portrait in a black wooden frame.
