Charles X opaline cup from the "Cristallerie De Bercy"

Era: Restauration period, Charles X.

Materials: opaline.

Dim: W 4.13 in / D 3.34 in / H 1.96 in.

Dim: W 10,5 cm / D 8,5 cm / H 5 cm.

Opalescent pink opaline cup with turquoise and purple opaline edging. The opal crystal pouch was blown and hot formed to create wavy edges. The colors were then assembled hot. This technique was known only by the manufacture of Bercy. Work of the manufacture of Bercy. Circa 1820-1830.
